EXAM FEE COLLECTION

PROCESS

Mobile Application – Step-by-Step User Guide

mobile-app screenshots. Each screen is reproduced and accompanied by its purpose, visible information, user action and expected result.

Source: Mobile APP.docx supplied for this documentation. The source contains mobile-app screenshots; explanations in this guide are based on the information visible in those screenshots.

Prepared as a quality reference document

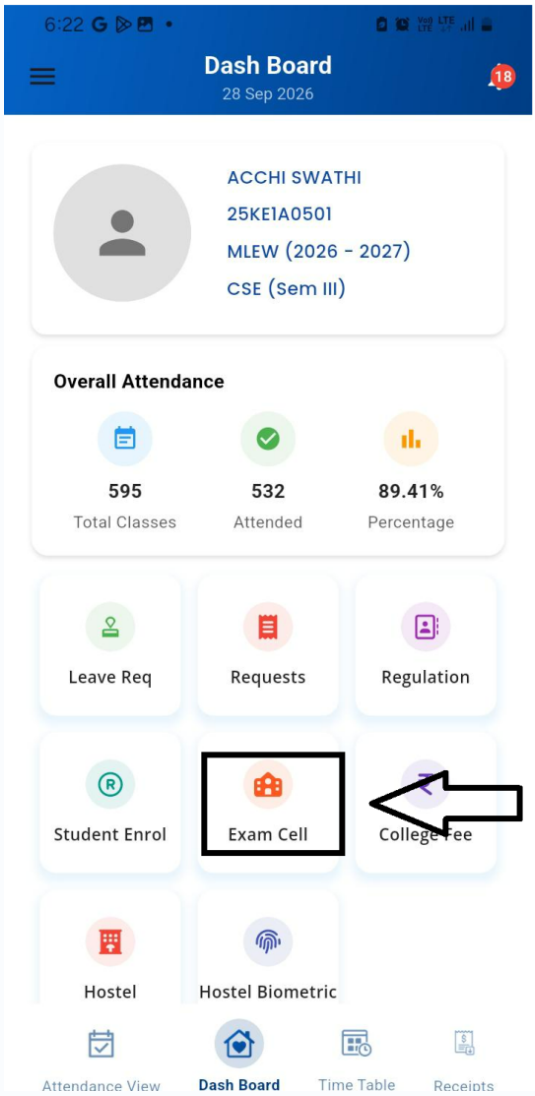

1. Online Fee Collection – Process Overview

The supplied screenshots show the following sequence from the student dashboard through payment-method selection:

1. Open the Exam Cell from the mobile-app dashboard.
2. Open Exam Related Fees.
3. Select the required examination.
4. Review the student's examination and registered-course details.
5. Open the fee Preview.
6. Review the course list and total fee.
7. Confirm the payment details.
8. Open the saved/initiated transaction using Go to Payment.
9. Select the available payment method.
10. Tap Proceed to Pay to continue with the online payment.

Important review points: Before confirming payment, verify the examination selected, registered courses, exam fee, fine and total amount shown on the confirmation screens.

2. Screen 1 – Dashboard – Open the Exam Cell

Purpose

The dashboard is the starting point for the online exam-fee collection process. The screen shows the logged-in student's profile information and available application modules.

What is visible

• Student profile information, including name, hall-ticket/ID information, academic year and branch/semester.

• Overall attendance summary is displayed.

• Application tiles include Leave Request, Requests, Regulation, Student Enrolment, Exam Cell and College Fee.

• The Exam Cell tile is highlighted with an arrow in the supplied image.

User action

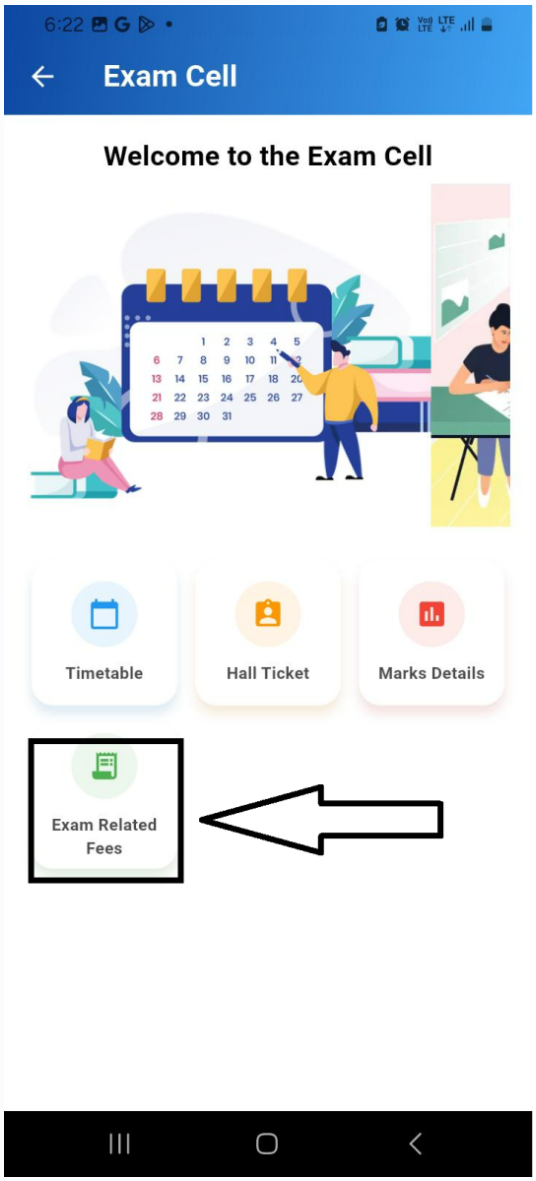

Tap the Exam Cell option to enter the examination-related services.

Expected result

The application opens the Exam Cell home screen.

Screen reference: Image 1 from the supplied Mobile APP document.

3. Screen 2 – Exam Cell – Open Exam Related Fees

Purpose

This screen is the Exam Cell landing page. It provides examination-related services available to the student.

What is visible

• Header: Exam Cell.

• Welcome message: Welcome to the Exam Cell.

• Service options include Timetable, Hall Ticket and Marks Details.

• The Exam Related Fees option is highlighted by an arrow.

User action

Tap Exam Related Fees to start the fee-selection process.

Expected result

The application opens the Exam Related Fees screen.

Screen reference: Image 2 from the supplied Mobile APP document.

4. Screen 3 – Exam Related Fees – Select an Examination

Purpose

This screen is used to select the examination for which the student wants to view or pay the applicable fee.

What is visible

• Header: Exam Related Fees.

• A Select Exam dropdown is displayed.

• No examination is selected yet in this screenshot.

User action

Tap the Select Exam dropdown and choose the required examination.

Expected result

The selected examination is displayed in the dropdown.

Screen reference: Image 3 from the supplied Mobile APP document.

5. Screen 4 – Exam Related Fees – Examination Selected

Purpose

The selected examination is now visible, confirming that the required exam category has been chosen.

What is visible

• Header: Exam Related Fees.

• The selected examination is shown as 2-1 regular.

• The screen is ready to load the corresponding fee details.

User action

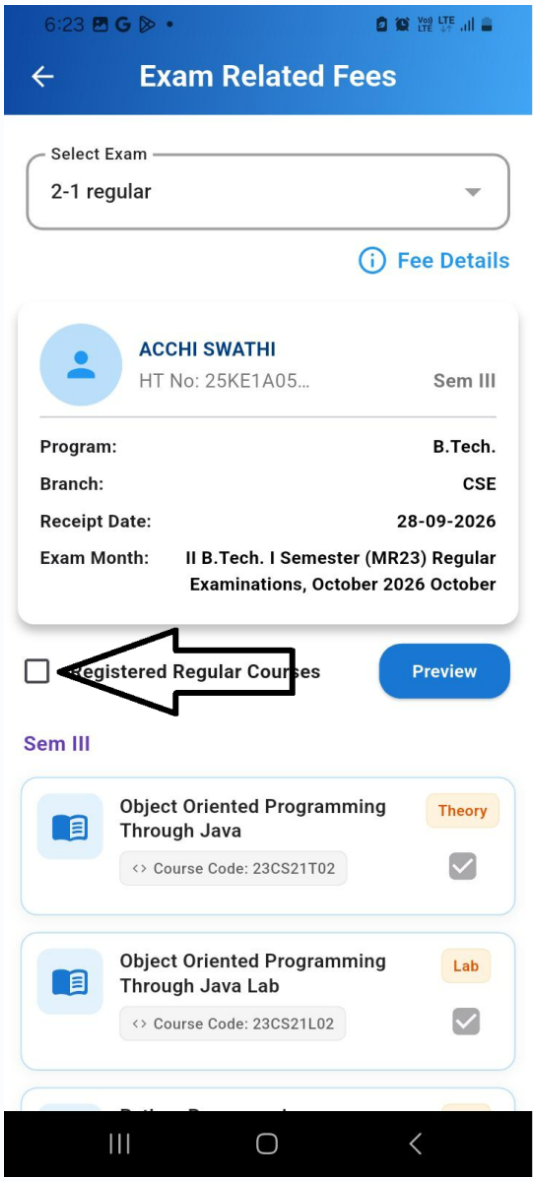

After selecting the examination, proceed to the fee-details section displayed by the application.

Expected result

The student's examination and registered-course information is displayed.

Screen reference: Image 4 from the supplied Mobile APP document.

6. Screen 5 – Fee Details – Review Registered Courses

Purpose

This screen displays the student's examination details and the courses registered for the selected examination.

What is visible

• Student name and hall-ticket number are shown.

• Program and branch information are displayed.

• Receipt date and examination month are visible.

• The Registered Regular Courses section lists courses selected for the examination.

• A Fee Details option is available.

• A Preview button is visible for reviewing the payment before confirmation.

User action

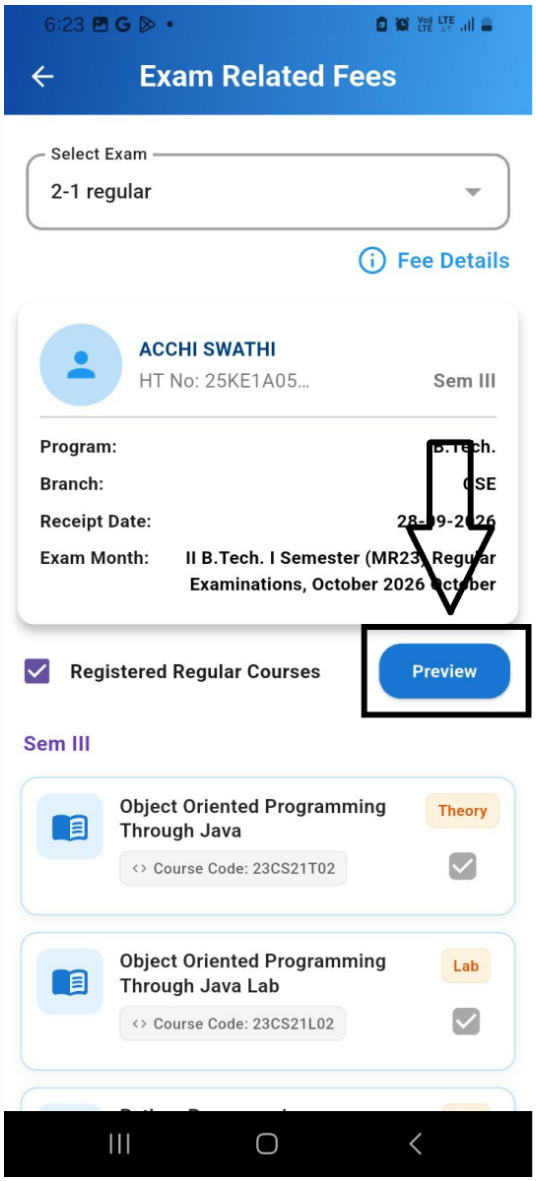

Review the registered courses and tap Preview to verify the fee information before continuing.

Expected result

The application opens the payment-confirmation summary.

Screen reference: Image 5 from the supplied Mobile APP document.

7. Screen 6 – Fee Details – Preview and Confirm

Purpose

This screen continues the review process before the payment amount is confirmed.

What is visible

• The selected examination remains 2-1 regular.

• Student and examination information is displayed.

• Registered regular courses are listed.

• The Preview button is highlighted in the supplied image.

User action

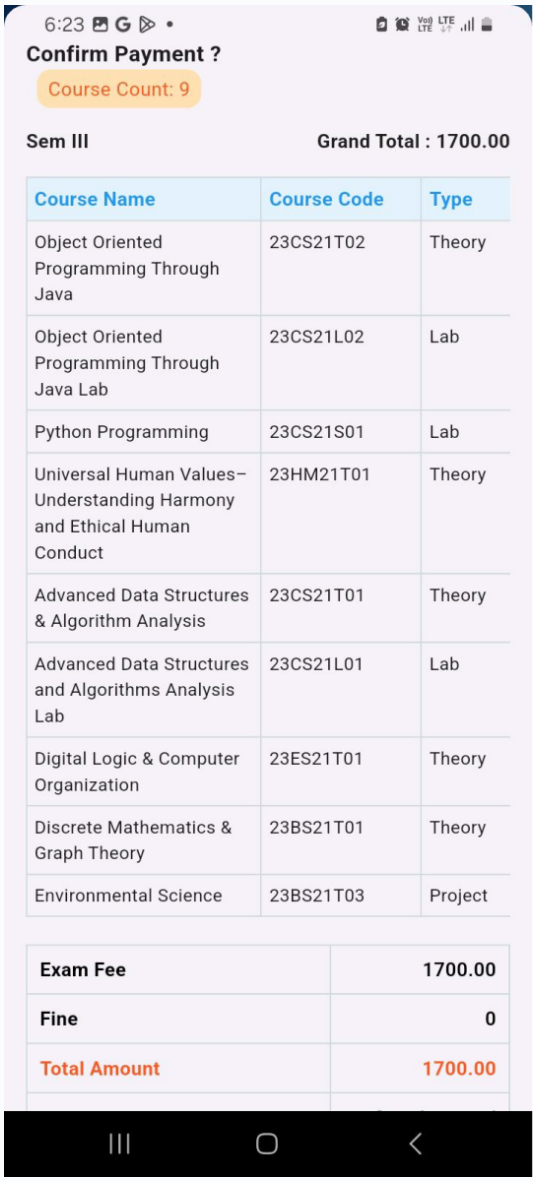

Tap Preview after checking that the displayed examination and registered courses are correct.

Expected result

A detailed confirmation screen is opened showing the course count and total amount.

Screen reference: Image 6 from the supplied Mobile APP document.

8. Screen 7 – Confirm Payment – Course and Fee Summary

Purpose

This confirmation screen provides a consolidated view of the courses and the fee amount that will be used for payment.

What is visible

- Title: Confirm Payment?.
- Course count shown: 9.
- Semester grand total shown: 1700.00.
- The course table displays course name, course code and course type.
- The screen shows Exam Fee 1700.00, Fine 0 and Total Amount 1700.00.

User action

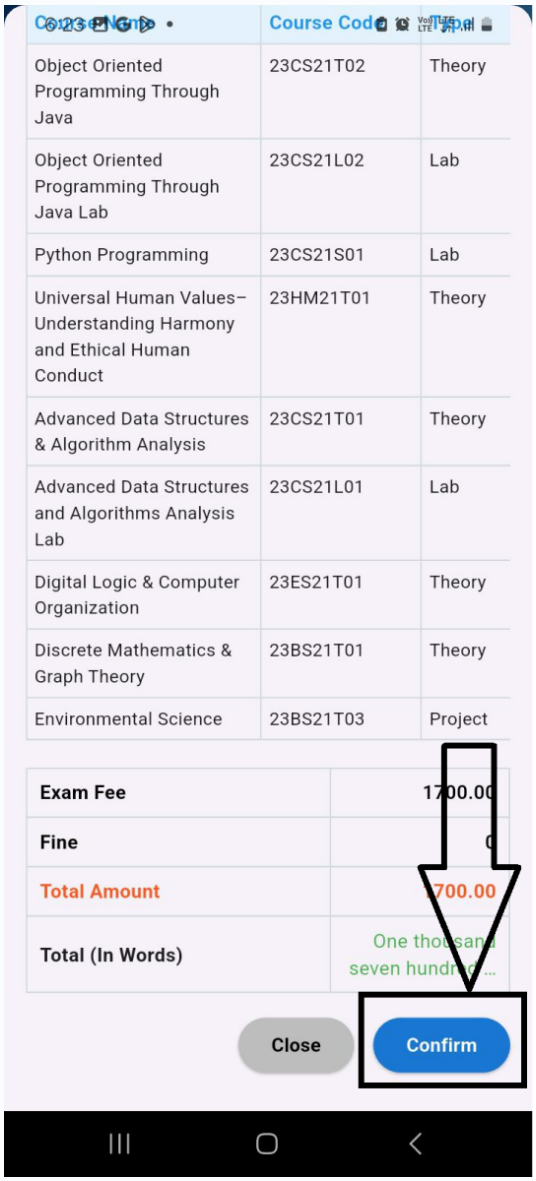

Verify the course list and amount. Continue only after confirming that the details are correct.

Expected result

The payment confirmation stage is ready for the final amount review.

Screen reference: Image 7 from the supplied Mobile APP document.

9. Screen 8 – Confirm Payment – Total Amount and Confirmation

Purpose

This screen continues the confirmation process and shows the total payable amount before the transaction is initiated.

What is visible

• The course list remains visible.

• Exam fee, fine and total amount are displayed.

• The Total (In Words) section is shown.

• The Confirm button is highlighted in the supplied image.

User action

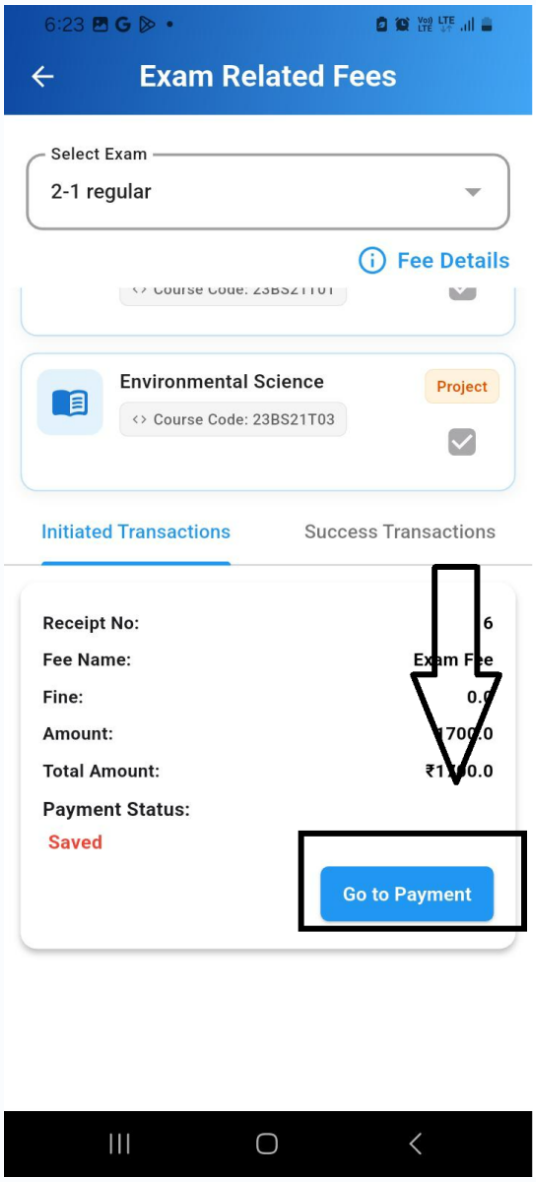

Check the final amount and tap Confirm to proceed with the payment transaction.

Expected result

The application returns to the fee-details area and shows the transaction/payment status.

Screen reference: Image 8 from the supplied Mobile APP document.

10. Screen 9 – Transaction – Go to Payment

Purpose

This screen shows the transaction record after the fee has been initiated/saved and provides the option to move to the payment gateway.

What is visible

• The screen contains Initiated Transactions and Success Transactions tabs.

• A transaction card displays receipt number, fee name, fine, amount and total amount.

• Payment status is shown as Saved.

• The Go to Payment button is highlighted in the supplied image.

User action

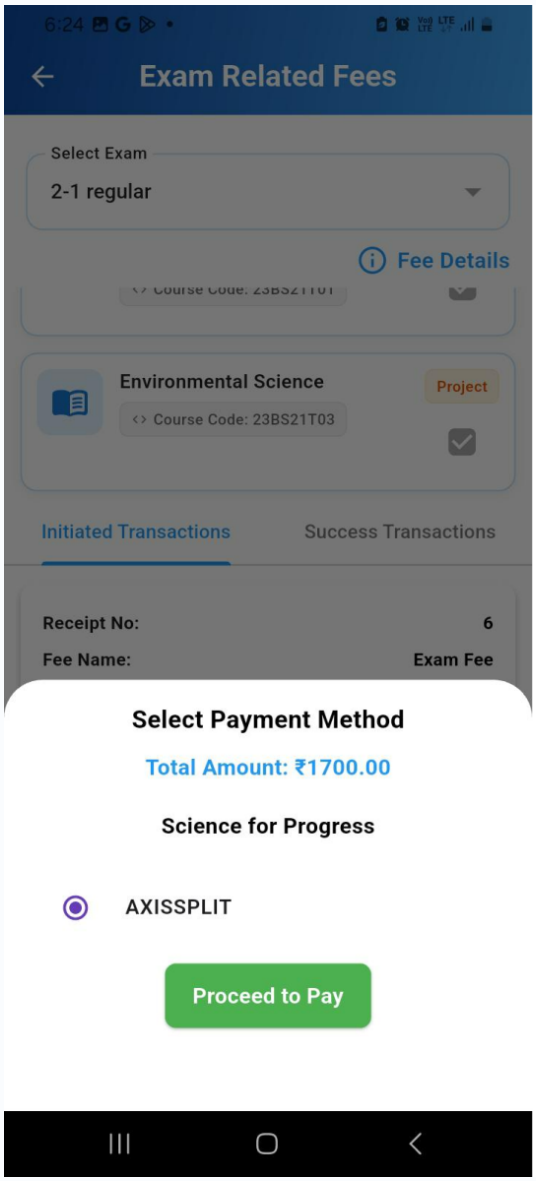

Review the transaction details and tap Go to Payment to continue to payment-method selection.

Expected result

The application opens the payment-method screen.

Screen reference: Image 9 from the supplied Mobile APP document.

11. Screen 10 – Payment Method – Proceed to Pay

Purpose

This is the payment-method selection screen. It displays the total amount and the available payment option before the payment is submitted.

What is visible

• Title: Select Payment Method.

• Total amount displayed: 1700.00 in the supplied screen.

• The available option shown is AXISSPILIT.

• A green Proceed to Pay button is available.

User action

Select/verify the displayed payment method and tap Proceed to Pay to continue to the payment gateway.

Expected result

The application proceeds to the payment stage for completing the online fee transaction.

Screen reference: Image 10 from the supplied Mobile APP document.

12. Final User Flow Summary
